## Product Manager (M/F)

### Mission

- You analyze customer expectations and market requirements. You are an expert with respect to the competition. You collaborate with the Marketing Team on market research, surveys, and external communications.
- You participate in product presales activities: calls, presentations, products demos and strengthen the sales teams at international trade shows.
- You coordinate internal and external activities throughout the product life cycle.
- You deliver high-level product specifications.
- You are the principal point of contact for the Product Owner and engineering teams during product development, and throughout the product life cycle.
- You take the responsibility for the ongoing prioritization of the product backlog based on priorities and dependencies with other teams.
- You communicate concise and regular status to the management.
- You work with third parties to assess partnership opportunities.
- You act as a leader within the company.

### Profile

- Master or equivalent in either a management or technological study. Experience in a similar domain is a plus
- Affinity with technology and able to discuss technology with teams and clients.
- fluent in English and French (B2 level)
- open-minded and team player
- manage MS Office tool suite

**Other**

- Challenging work and career evolution opportunities in a fast-growing SME with an international reputation.
- Join a team of talented and brotherly engineers.
- Competitive salary and conditions
